## DETAILED ACTION

### *Specification*

1. The disclosure is objected to because of the following informalities:

The title on the Abstract page above "Abstract of the Disclosure" should be removed.

Appropriate correction is required.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Paielli.

Re claims 1-13, Paielli discloses a brake pad for an vehicle, the brake pad comprising: base member (22); pad portion (42) disposed on the base member, the pad portion being constructed from a substantially non-conductive dielectric material; and first pair of capacitive plates (24, 26) disposed in the pad portion and arranged such that wear of the pad portion changes the capacitance between the first pair of capacitive plates.

Re claims 2 and 3, Paielli discloses wherein the pad portion is adapted to contact either a drum rotor or a disc rotor. (Column 2, lines 49-55)

Re claims 7-10, Paielli discloses wherein a second pair of capacitance plates (C3, C4) disposed within the pad portion and arranged such that capacitance between the second pair does not change with wear of the pad portion. (Column 3, lines 30-38)

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
